August, 2017

Theresa Comstock
2015-2017 Chair

Executive Summary

Napa County’s Mental Health Board (MHB) has a dedicated, engaged and diverse membership that understands that mental illness is a medical condition, and cares very much about the mental health services, programs and facilities available in our county.

Along with the following pages that outline our membership and activities for the year, there are two reports attached that provide research findings and recommendations of two MHB work groups:

- 1) School-Based Mental Health Services Needs Assessment and Stigma Reduction 2016 Workgroup (Attachment A) – Recommendations Include:
 - a. Full implementation of [AB114](#) – Educationally-related Mental Health Services (This shifted responsibility of mental health services from county mental health departments to school districts.)
 - b. Adding “Wellness Centers” to high schools, (Napa County Middle Schools now have them.) This is a place to go for any medical condition, including mental illness.
 - c. Providing Youth Mental Health First Aid training to staff and administrators to ensure potential issues can be recognized, assessed, screened and treated before reaching crisis level.
- 2) Employment Workgroup Report (Attachment B) Recommendations include adjusting the Department of Rehabilitation Model of employment support, to incorporate training for employers, and to tailor job programs to better fit the needs of adults with mental illness.

It is also important to acknowledge the many accomplishments of the Napa County Mental Health Division, under the leadership of Mental Health Director Bill Carter (as reported in the [Recommended Budget Book FY2017-18, page 381](#)).

- 1) Continued work toward developing a community-wide integrated health care and service delivery model.
- 2) Establishment of a Crisis Stabilization Unit (providing immediate response to individuals experiencing a mental health crisis, allowing the individual to avoid hospitalization).
- 3) Increased collaboration with Alcohol and Drug Services, Juvenile Probation and Child Welfare Services.
- 4) Continued expansion of mental health services to the forensic population (providing increased assistance to the Napa Police Department, Sheriff’s Department and Public Defender’s Office).
- 5) Improvements to timely access to assessment and referral of ongoing mental health services, including increasing bilingual Spanish-speaking capacity.
- 6) Implementation of system-wide, standardized outcome measurement for adult and children’s systems of care, allowing improved monitoring and coordination of care.
